Assembly Instructions

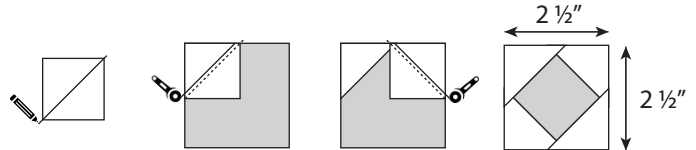

Step 1

If you are using 6" blocks in your lap quilt, lay out (16) 6" blocks in four groups of four blocks as shown. Join blocks to make (4) four-block units measuring 12 1/2" x 12 1/2".

Step 2

Place a 1 1/2" sashing square on the top left corner of a 2 1/2" outer border square, right sides together.

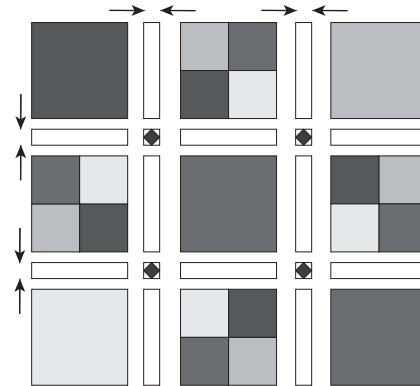

Sew, trim, and press out using the stitch-and-flip method.

Repeat stitch-and-flip steps on remaining border square corners as shown to create a square-in-a-square sashing post block measuring 2 1/2". Make 4 sashing post blocks.

Step 3

Lay out (9) 12" blocks OR (5) 12" blocks and (4) four-block units, sashing strips, and sashing post blocks as shown.

Join together into rows, then join rows together to make the quilt top center measuring 40 1/2" x 40 1/2".

Step 4

Sew the 2 1/2" inner border strips together end to end to create one long border strip. Measure the left and right sides of your quilt center, trim strip to that length, and sew the left and right inner borders to your quilt center.

Press seams toward the border fabric.

Step 5

Measure the top and bottom of your quilt center, trim the remainder of your strip to that length, and sew the top and bottom inner borders to your quilt center.

Press seams toward the border fabric.

Step 6

Repeat steps 4 and 5 to add the outer border.

Step 7

Baste, quilt, and bind as desired. Finished quilt measures 48" x 48".
