

TURN BACK TIME

Block-of-the-month program

Sally's Stitches
Betsy Chutchian

What's the recipe for a great quilt story? Start with an antique quilt dealer, an estate sale in New York City, and a mid-19th century quilt; season with historical prints in bright colors like cheddar and buttery yellows, turkey reds, Prussian blue, and poison greens; mix in some quirky applique blocks; and garnish with a bit of...Cher?! True story!

Now take the fabric collection inspired by the quilt in our great quilt story, stitch it all together with some help from quilt historian, author, and expert teacher Betsy Chutchian, and you've got an heirloom!

The Turn Back Time Sampler is a masterpiece project for quilters yearning to make something truly special. Betsy has faithfully replicated the charming aesthetic from the antique quilt that her Sally's Stitches fabric collection is based on, while updating and standardizing the construction for today's quilter.

Through the block-of-the-month program, you'll have a chance to learn and use several different applique techniques as well as foundation paper piecing, working with diamonds, and plenty of half-square triangles. The end result is a showstopping quilt that is both timeless and nostalgic.

Ask your quilt shop for all the details on this exciting block-of-the-month program!
