PIECING

Use a scant $\frac{1}{4}$ " seam allowance throughout. Press seams as noted.

Draw a diagonal line from corner to corner on the wrong side of each blue print $2\frac{3}{8}$ " square.

With right sides together, place 2 matching blue print squares on opposite corners of a background print $4\frac{1}{4}$ " square as shown.

Stitch a scant $\frac{1}{4}$ " seam on both sides of the marked line. Cut on the marked line and press the blue print triangles out.

With right sides together, place a matching blue print square on the large background print triangle as shown.

Stitch a scant $\frac{1}{4}$ " seam on both sides of the marked line as before. Cut on the marked line and press the blue print triangles out to make a flying geese unit.

Each background print square and 4 blue print squares will make 4 matching flying geese. Make 3 sets of flying geese.

Trim units to $2" \times 3\frac{1}{2}"$.

For the star block, gather the following pieces:

- (4) matching flying geese units
- (1) matching blue print $3\frac{1}{2}"$ square
- (4) matching background print $2"$ squares

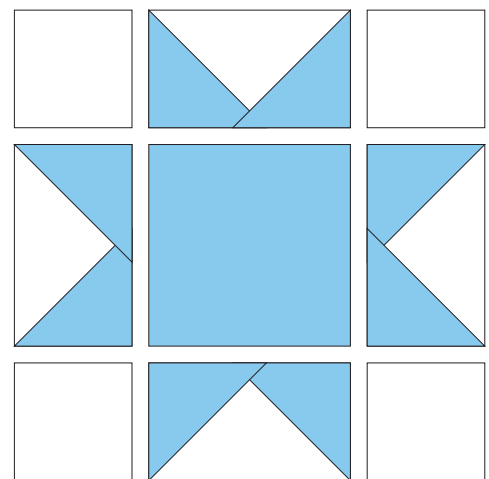

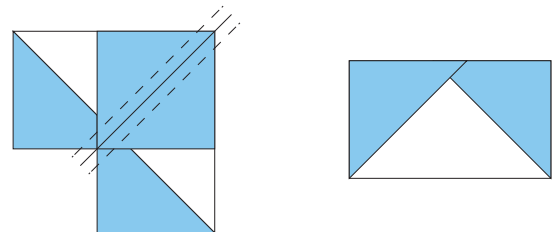

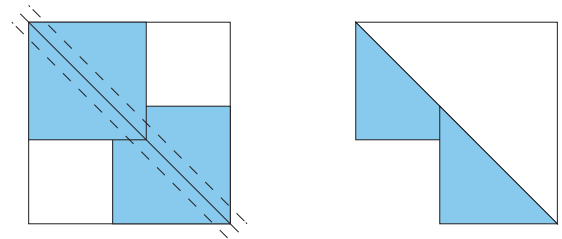

Lay out the pieces as shown.

Join the pieces to make 3 horizontal rows. Press the seams open or toward the background corner squares and the center print square.

Join the rows to make a completed star block. Press seams open or toward the center row.

Repeat to make 3 star blocks.

Trim star blocks to $6\frac{1}{2}"$ square.

PIECING continued

Lay out the star blocks in a row of 3. Join the blocks to make a star row that measures $6\frac{1}{2}'' \times 18\frac{1}{2}''$.

Press the seams open or in one direction.

Sew a background print $1\frac{1}{2}'' \times 6\frac{1}{2}''$ rectangle to the left and right sides of the star row.

Press the seams toward the background print. The completed row should measure $6\frac{1}{2}'' \times 20\frac{1}{2}''$.

With the red print $2\frac{1}{2}'' \times 10''$ strips at the top and bottom, lay out the red print and background print $2'' \times 10''$ strips, alternating colors as shown.

Join the strips with a scant $\frac{1}{4}''$ seam allowance to create a stripe panel that measures $10'' \times 20\frac{1}{2}''$.

Press seams open or toward the red strips.

From the pieced stripe panel, cut two strips measuring $4\frac{1}{2}'' \times 20\frac{1}{2}''$.

Find the center of your stripe panels and star row. Match the points and pin the stripe panels to the top and bottom of your star row, making sure the fabrics in your stripe panels line up across the star row. Join the stripe panels to the star row with a scant $\frac{1}{4}''$ seam allowance.

Press the seam open or toward the stripe panels.

Trim pillow top to $14\frac{1}{2}'' \times 20\frac{1}{2}''$.

ASSEMBLY

If desired, quilt the pillow top. For quilting pillow tops, Carrie likes to use a thin cotton batting and the thinnest bleached muslin she can find for the backing.

Finish the pillow in your preferred method. If you'd like to make a zipper closure for your pillow but you're not sure how to begin, check out this quick zipper tutorial by Carrie on the Moda blog: <https://my.modafabrics.com/inspiration-resources/scrapbook-quilts-week-5>.

Insert a $14'' \times 20''$ pillow form and enjoy!
