

Curated in Color

BY CATHE HOLDEN

My Curated in Color fabric collection is an energizing spectrum of rich, vintage ephemera, images and typography organized into both monochromatic and full-spectrum displays. Colorful treasures gathered and combined create a beautiful rainbow flat-lay of individual components (delightful for fussy-cutting) and an arrangement of vivid graphic rounds. I've designed the ever-popular cheater patchworks, stunning collage compositions, and vibrant marbled patterns in each of the collection's eight exciting colors. And sweet seed-bead flowers and brass number stencils complement the kaleidoscope of these inspiring designs.
