CJP 2101 Reach for the Sun
64'' x 72''
Imagine an ancient stone cottage tucked deep in a secluded wood. Set atop rolling hills surrounded by flower fields and tall lush trees, there you will find the retreat of my dreams...

Fresh As A Daisy is a celebration of this hidden gem, with gardens filled to the brim with a riot of color, texture, and of course, daisies.

For this collection, we have taken the beautiful painting "Lost In The Woods" and brought it to life on fabric! Each yard is a panel of my dream cottage garden. There is also a panel with an arrangement of daisies complemented by the "Flower Patch" art panel. There are floral patterns colored in a fresh, modern palette, new flow watercolors, stripes and colorful splashes of metallic throughout.

We can’t wait to see what hidden treasures you dream up with Fresh As A Daisy fabrics!

Daisies were referred to as "day's eye" in Old English because the petals close over the yellow center at night and re-open in the daytime. The phrase "as fresh as a daisy" came from this meaning that someone was well-rested and ready to go.
