Red is so many things… bold and beautiful like crimson rose petals, summery like a patch of strawberries, as much fun as a child’s ball, and as deep as the warmest fire. Just Red brings you everything this versatile and diverse color scheme has to offer, and more.

This collection is a journey into red with lighter, softer pinks and white, as well as more saturated hues like a popping orange and a pink that demands to be seen and heard. A dark, muted burgundy rounds out the collection and creates a complete range of tones, offering a captivating depth from light hues, to mid-tones, into a darker color that creates a soft, harmonious look.

Just Red was designed with large-scale floral prints, medium-scale geometric patterns, as well as small-scale blenders, and the addition of little splashes of gold brings an elegant, fanciful feel to the prints. Just imagine such a quilt on a red velvet couch, or perhaps strawberry reds combined with white for a garden quilt on a summer’s day, or a fun and youthful creation with pale and popping pink for a young girl. The possibilities with Just Red are as endless as the color itself.
