**Log Cabin Block Instructions:**

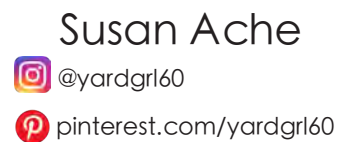

1. To begin Log Cabin Block assembly, gather the following for (1) block using assorted prints:
  - a. (17) White A squares.
  - b. (2) Green A squares.
  - c. (2) Red A squares.
  - d. (2) Green rectangles B-D.
  - e. (2) Red rectangles B-D.
2. Using the diagram for reference, lay out the block as shown. White A squares should create a continuous chain throughout the block.
3. Begin sewing the block by creating a 9-patch for the block center. For all seams press toward the Red/Green prints and away from the White A squares.

- Continue block assembly by attaching side B-D rectangles, pressing away from the block center once complete. White A squares will be sewn to the top/bottom B-D rectangles as shown. Press all seams away from the White A squares.
- Diagrams show the block in all stages of assembly. Sew until complete.
- Repeat to create (12) uniquely colored Log Cabin Blocks. Trim blocks to measure  $9\frac{1}{2}'' \times 9\frac{1}{2}''$  unfinished.
