

# MODA SUMMER SEWING 2023

Ready for a summer of creative fun? Moda Fabrics brings you our all-new Summer Sewing program, designed to appeal to crafters and sewists of all ages and skill levels.

Whether you need projects for on the go, projects to make with your grands, projects to teach others, or projects to just have fun, we've got it here for you.

We've designed these projects to cover a range of skills. Starting with some super easy projects that will allow you to teach absolute beginners and moving on to more challenging technique, these projects are perfect 3-6 hour classes, quick make and takes, kits, demos or clubs.

In our ongoing Moda Makes It Easy efforts, we've put together lesson plans for the classes & marketing plans to help you attract students.

These projects are perfect for using your existing inventory. Customize these projects for your shop by using your favorite fabrics.

Here's the project line up: \_\_\_\_\_

## On-the-Go Travel Pillowcase

Make just one or make one for everyone (but the driver!) and keep a set of travel pillows in your car. (And make one for yourself to support your back while you sew!) This is a great project to embellish and personalize as desired.

## Fast, Fun Summer Rag Quilt

Rag quilts are back! Perfect to use wovens, flannels or a combination of favorite prints. Use Layer Cakes for a no-cutting-needed version or grab yardage to create a look you love. Easy machine sewing and then clipping using Elan-5 scissors makes it a snap. This project is a great gift for your favorite RV'er. Teens love making these to get that Pottery Barn look. This summer weight quilt is perfect for those times you just need a light throw on the sofa or something to sit on under the stars.

## Effortless Tote Bag

Carry along essentials for that next road trip, picnic or play date in our oh-so-easy tote bag.

## Best Beach Ball

The fun won't stop when you make our all-new Beach Ball. Available in 3 sizes, you won't be able to make just one. Use our acrylic template to easily cut the shapes and our pattern provides detailed, easy-to-follow guidance for piecing success. This project can also be sewn by hand.
