Needle Book Display

Ideal for embroidery, tapestry, fashion, darning and everyday sewing. Assortment of long needles, short darners needles and tapestry needles. An original creation for the 185th anniversary of the BOHIN brand, with an exclusive print depicting the icons *Solange*, *Edwige*, and *Marlène* who embodied the BOHIN image in the 1920s, 1930s, and 1950s. This set of 40 expert and specific picks are made of high-quality, smooth and solid nickel-plated steel. The selection of these needles was based on the award-winning assortment from the Exposition Universelle of 1900, in Paris. Made in France in our factory, from nickel-plated steel, our needles go through 27 manufacturing stages, which guarantees an incomparable slide and an irreproachable tip.

505 Temporary Adhesive Glue Stick by Odif is a water soluble glue that applies in a blue color and fades to transparent after about 10 seconds.

B

A fine mist of Roxanne Temporary Adhesive Spray on large or small pieces of fabric is repositionable, will not transfer to other surfaces, will not stain or otherwise damage fabric or clog needles. The tackiness of the adhesive will lessen and evaporate over time as fabric is manipulated. Wash with soap and water or dry clean to make the tackiness disappear right away. Acid free, solvent free, odorless and colorless.

Full instructions for the top two favorite precut sizes: the 10" block and the 5" block. Uses Annie McHugs Texas Picture Window Reverse Applique Tool.

The Everyday Curve Templates make piecing:

- **Fast** because the acrylic templates allow for cutting multiple layers at once.
- **Easy** because you don't have to make your own templates or worry that they stay accurate when cutting multiple blocks.
- **Accurate** because the measurements on the templates are precise, ensuring they line up perfectly with your fabric while cutting.

Sew In Labels are retail ready in beautiful, recyclable kraft packaging. The labels can be sewn directly into seams or on top of finished projects. They can help identify the back of garments for easy dressing, simply be used to add a beautiful sentiment to handmade gifts, or be attached to the outside of any textile project to create a one of a kind look.

Martelli

Do you experience pain and fatigue in your fingers, hand, wrist, forearm, elbow, upper arm, shoulder, or neck and back after a full day of cutting? Do you have problems with arthritis, carpal tunnel syndrome, or tendinitis?

Then the *Martelli ErgoCutter*—the only truly ergonomic rotary cutter—is right for you! Unlike traditional rotary cutters, the ErgoCutter is held in a natural position with your arm and palm of your hand evenly distributing all of the pressure. It relies on pressure from your entire arm and hand instead of just your wrist and fingers.

The design and form of the grip is the key to the ErgoCutter. It facilitates a better, more ergonomic fit in your hand.

Research and development was guided by the advice of orthopedic surgeons, occupational therapists, and other qualified professionals.

Moda Exclusive CAKE & CUPCAKE MIX RECIPES

(Foundation Paper Piecing)

What is a Moda Cake Mix? It's a recipe for block parts that makes baking a Layer Cake quilt easier than ever. This unique triangle paper is designed to work in conjunction with Moda's 10" square Layer Cakes. There are also Cupcake Mixes for the 5" Charm Packs!

Each tablet has 44 sheets – one for each layer in a Layer Cake or Charm Square – and a couple of extras for practice. Each pad also includes a few simple block and layout ideas – just add 1 or 2 Moda Layer Cakes or Charm Packs and you're ready to start stitching. There are twelve different Cake Mixes and four different Cupcake Mixes available.

VELOCITY 270IR

AUTO CONTROL STEAM IRON

The Velocity 270IR uses our patented 2 heating element and micro pump technology to provide our most advanced level of steam output and temperature control with 8 pre-programmed settings. Spitting and leaking are over as the 270IR turns the iron's water into steam before it reaches the soleplate. Sensor technology means you have steam on demand when you need it. The anodized soleplate is the hardest, most scratch-resistant, and best gliding material that exists for ironing.

The Velocity 240IR uses our patented 2 heating element and micro pump technology to provide our most advanced level of steam output with both Eco and Turbo temperature settings. Spitting and leaking are over as the 240IR turns the iron's water into steam before it reaches the soleplate. The iron's sensor technology means you have steam on demand when you need it. The anodized soleplate is the hardest, most scratch resistant and best gliding material that exists for ironing. Ergonomic design, it's a joy to use.

Vacuum & Up-Air Pressing Board

Not all ironing boards are made the same and we set out to prove that with our series of Reliable ironing boards. Made in Italy, this ironing table is engineered and built to exceed your expectations. This home ironing board packs professional features like up-air & vacuum function.

UP-AIR FUNCTION: The up-air (blowing) function on our 500VB is great for delicate fabrics, removing the risk of leaving an impression or crushing the nap. It also allows you to iron velvet and dark garments avoiding the risk of shine marks.

VACUUM FUNCTION: The vacuum function holds fabric firmly and evenly into place, eliminating the possibility of dragging or further wrinkling as you iron. Use this function for pressing a shirt or putting in a crease on pants or pressing yardage.
