PIXEL POCKET

Use a Pixel Mini Charm Pack to add a pocket to your favorite tote.

MATERIALS

- 1 Pixel Mini Charm Pack (or 12 2½" squares)
- 1 tote bag (shown: Our Favorite Tote free RSS pattern out of Smile & Wave canvas from Koi Pond by Rashida Coleman-Hale)
- 8½" x 6½" backing fabric

INSTRUCTIONS

All seams ¼" unless otherwise noted

1. Pick 12 squares from the Pixel Mini Charm Pack. Piece them together in three rows of four, pressing seams in opposite directions. Sew rows together, pressing seams open.
2. Place pocket and backing right sides together. Stitch around all four edges, leaving a 4" opening in bottom edge.
3. Clip corners, turn right side out, and press. Fold under edges of opening ¼" and press.
4. Pin pocket to tote with backing against tote. (Tip: fold tote in half and finger press to find center, then align crease with center seam of pocket.) Stitch around sides and bottom close to edge of pocket to attach. Stitch a triangle in each upper corner of pocket for added strength.
