A

The Dritz Small Ergonomic Seam Ripper is the perfect solution for removing unwanted stitches with ease and comfort. Its long, fine blade is designed to reach even the tightest spots, while its hardened steel construction ensures that the blade retains its sharpness for long-lasting use. Additionally, a red safety ball protects your fabric when removing stitches, and the soft grip handle provides ultimate comfort and stability.

B

The Ultimate? No brag, just fact! Quilters use stiletos to guide fabric while machine stitching to minimize shifting, and this tool is equipped with a special PVC coated stainless steel shaft and point that "grab and hold" for accurate results! Includes a blunt tip with surface coating to lightly grab fabric and a handle with soft grip and surface ridges for comfort and stability. Triangular shaped handle keeps tool from rolling off work surface.

C

D

Measure with ease and precision with the Retractable Tape Measure by Dritz! This premium quality measuring tool is designed to make fabric measuring and calculations a breeze. The tape measure features standard measurements on one side and yardage measurements on the other, allowing for easy conversions between the two.

CAKE & CUPCAKE MIX RECIPES

(Foundation Paper Piecing)

What is a Moda Cake Mix? It's a recipe for block parts that makes baking a Layer Cake quilt easier than ever. This unique triangle paper is designed to work in conjunction with Moda's 10" square Layer Cakes. There are also Cupcake Mixes for the 5" Charm Packs!

Each tablet has 44 sheets – one for each layer in a Layer Cake or Charm Square – and a couple of extras for practice. Each pad also includes a few simple block and layout ideas – just add 1 or 2 Moda Layer Cakes or Charm Packs and you're ready to start stitching. There are twelve different Cake Mixes and four different Cupcake Mixes available...

VELOCITY 270IR

AUTO CONTROL STEAM IRON

The Velocity 270IR uses our patented 2 heating element and micro pump technology to provide our most advanced level of steam output and temperature control with 8 pre-programmed settings. Spitting and leaking are over as the 270IR turns the iron's water into steam before it reaches the soleplate. Sensor technology means you have steam on demand when you need it. The anodized soleplate is the hardest, most scratch-resistant, and best gliding material that exists for ironing.

ROTARY CUTTING WITH FISKARS

Rotary Ruler Combo

Great for beginners, the unique design of this tool makes cutting perfect shapes from fabric a breeze -- since you're not managing two tools separately, you don't have to struggle with a misaligned ruler or worry about holding the rotary cutter straight.

It includes a 45 mm spring-action rotary blade that makes clean cuts through multiple layers of fabric and an ergonomic blade carriage that makes cutting smooth and easy. The ruler features a bold grid that is printed on both sides for right- or left-handed use, plus highlighted numbers for excellent visibility on light or dark fabric. The unique rail design prevents lint build up as you work, the no-touch magnetic blade change system makes blade change safe and easy while storing used blades, and a carrying handle offers easy, convenient transportation.

Rotary Cutting Mats

Self-healing professional quality rotary cutting mats.
Double-sided with yellow grid lines on one side for precision cutting, solid on opposite for general cutting.
Rotary mats protect your work area and help extend the life of your rotary blades.

Mats are minimum 2
unless otherwise noted.

Olfa's Rotating self-healing professional quality rotary mats rotate 360° smoothly, eliminating the need to move your body or your project around. It's simple to use, just cut, rotate mat, and cut again!
Non-slip back for stable, safe cutting and light-weight.

Martelli

Do you experience pain and fatigue in your fingers, hand, wrist, forearm, elbow, upper arm, shoulder, or neck and back after a full day of cutting? Do you have problems with arthritis, carpal tunnel syndrome, or tendinitis?

Then the *Martelli ErgoCutter*—the only truly ergonomic rotary cutter—is right for you! Unlike traditional rotary cutters, the ErgoCutter is held in a natural position with your arm and palm of your hand evenly distributing all of the pressure. It relies on pressure from your entire arm and hand instead of just your wrist and fingers.

The design and form of the grip is the key to the ErgoCutter. It facilitates a better, more ergonomic fit in your hand.

Research and development was guided by the advice of orthopedic surgeons, occupational therapists, and other qualified professionals.
